EU Type Examination Certificate

Date: 2020/10/02 n. 469204028/OE

Validity: 2023/06/10

This Certificate cancels and replaces the previous one n° 469182411/OI dated 2018/06/11.

The hereunder described items of Personal Protective Equipment have overcome positively the "EU type examination" (Module B), proving their conformity to the safety and <mark>health requireme</mark>nts of the Regulation (EU) 2016/425 (Annex II)

Manufacturer: (Responsible of the PPE)	via Giorgione, 5 – 31030 ALTIVOLE (TV) – ITALIA	
Type of PPE:	motorcyclists' protective footwear	
Category of PPE:	II: "medium" risks. This certificate is based on reference standards listed below: its validity is no longer ensured should new version of the standards come into force.	

Model "ADV TOURER LADY Dry FORT96W"

col. BLACK (99)

Description:

fastening system: by means of a black polymeric strap in the external plantar arch area of the footwear, a black leather strap with velcro closure in the bootleg area and a flap with Velcro closure in the external upper area of the bootleg;

processing: Ago;

outsole: black vulcanized rubber "U5117" marked "SILGA" (MF0040);

upper: black bovine leather "DAKAR 22/24 IDRO" declared thickness 2.2-2.4 (PE0135X); lateral internal and external bootleg insert: black suede split leather "CROSTE SPALLE BIKE 2.2 ANTIST. CON TRATT. ANTISTINGIMENTO" (PE0099A) reinforced with plastified nonwoven fabric:

front and rear joint: black calfskin (PE0065) coupled with white foam material and nonwoven fabric;

collar: black calfskin (PE0065) coupled with white foam material;

vamp and quarter lining: grey fabric marked "FORMA DRYTEX" coupled with grey foam material, white membrane and white knitting "FOD. TEPOR + ATLANTICO ROVESCIATA + ST. FORMA" (FO0207) which covers the insole;

bootleg and shinbone lining: black fabric VELLUTINO coupled with grey foam material (FO0176);

collar lining: black calfskin (PE0065);

insole: light-blue semirigid polymeric material coupled with a layer of black foam material "SOTTOPIEDI IN PLASTICA 329X" (MF0369) and covered by the vamp and quarter lining;

removable insock (perforated): white foam material coupled with grey non-woven fabric "FUSBET ECO PE150" (MF0358);

gearshift lever protective insert: made of the same leather as that of the upper.

The boot has also the following inserts in polymeric material inserted into the upper:

- shin insert: white shield;
- external lateral insert: black color;
- internal ankle insert: black shield;
- external ankle insert: white thermoformed non-woven fabric with grey foamed padding.

Technical Standard:	EN 13634:2017	Protective footwear for motorcycle riders – Requirements and test methods	
Intended use:	use by motorcyclists for normal road activities, mainly on urban roads (e.g. scooter, etc.)		
Size range:	from 36 to 42		

DDD N0 0220 B

EU Type Examination Certificate

Date: 2020/10/02 n. **469204028/OE**

Validity: 2023/06/10

Technical File: DC-12634/E

Test report: RCT n°3722098

Functions and Requirements according to EN 13634:2017: all mandatory ones, among which:

Height of upper level 2
Impact abrasion resistance of the upper level 2
Impact cut resistance of the upper level 2
Transverse rigidity of the whole footwear level 2

Optional requirements according to EN 13634:2017:

WR = water resistance of the whole footwear.

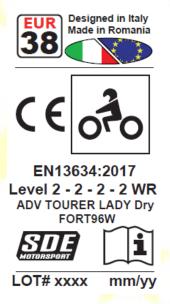

NOTE: the Technical Standard provides 2 performance levels with level 2 meaning the higher performance.

performance

Marking: printed on a stitched label and displaying the following information:

- CE Marking;

- name/Trademark of the Manufacturer;
- item designation (= commercial name + alphanumeric code);
- pictogram to indicate the motorcycle use + nr./year of the reference Standard + levels of performance reached during laboratory tests + optional requirement WR;
- date of production (month and year) + pictogram instructing to read the User Manual;
- size indication;
- additional information: "Designed in...", "Made in..." + batch number.

NOTE: the Technical File contains a more detailed description of the PPE (material, method of assembly, photographs or drawings), performance data, safety functions and level of protection, elements of conformity to the basic and supplementary requirements.

The Technical File is integral part of the present Certification, which has to be kept available by the applicant to be forwarded - upon request - to the entitled person (supervising body, Controlling Officer).
