Test report:

RCT n°3741025

Functions and performance levels:

Requirements according to EN 13634:2017: all mandatory ones, among which:

Height of upper	level 2
Impact abrasion resistance of the upper	level 2
Impact cut resistance of the upper	level 2
Transverse rigidity of the whole footwear	level 2

Optional requirements according to EN 13634:2017:

WR = water resistance of the whole footwear.

NOTE: the Technical Standard provides 2 performance levels with level 2 meaning the higher performance.

Marking:

printed on a stitched label and displaying the following information:

- **CE Marking;**
- name/Trademark of the Manufacturer;
- item designation (= commercial name + alphanumeric code);
- pictogram to indicate the motorcycle use + nr./year of the reference Standard + levels of performance reached during laboratory tests + optional requirement WR;
- date of production (month and year) + pictogram instructing to read the User Manual;
- size indication;
- additional information: "Designed in...", "Made in..." + batch number.

This article is produced in two different production sites (Croatia and Romania). For this reason, two different CE markings are available.
